

Elect

David Hollister

Plumas County District Attorney

Experience

Conviction

Character

Experience Matters:

During his 17-year career, David Hollister has prosecuted, with distinction, thousands of cases. Dave's experience makes him the ideal candidate for this job; having tried 20 felony cases (including 16 serious or violent felonies) lasting a total of 355 days and resulting in a conviction rate of 85%. In a small county such as Plumas, we need a District Attorney who can and will bear the responsibility of trying the most difficult cases. Dave's experience prepares him to successfully lead the District Attorney's office in a direction that is more professional and fair.

Character Matters:

In 2007, the Plumas County Grand Jury reported the current DA was often absent and did not keep regular office hours. In contrast, and as your next District Attorney, David Hollister will continue to work hard every day – just as he has done throughout his 17-year career. He believes the District Attorney must be willing to personally take on the tough cases and day-to-day challenges a prosecutor faces, lead by example, and never forget "public service" means the DA serves the public and not that the public serves him.

Conviction Matters:

Since 2003, when he assumed the job of felony prosecutor from the current Plumas County District Attorney, David Hollister has increased the office's felony conviction rate by 31%. Throughout his career, Dave has earned the respect of crime victims, law enforcement, courthouse workers, jurors, defense attorneys, and the community. As your next Plumas County District Attorney, David Hollister will continue this commitment to justice and public service.

Already, we have experienced an overwhelming response to this candidacy. Please join us and your friends, some of whom are listed below, in endorsing David Hollister as the next Plumas County District Attorney.

Respectfully yours,

The Committee to Elect David Hollister Plumas County District Attorney
